

CERV

Limited Warranty

Build Equinox warrants the original purchaser that the CERV system is free of defects in material and workmanship for a period of 5 years from date of purchase. This warranty is only valid for proper installation and use of the system. THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED.

During the stated warranty period, Build Equinox will, at its option, repair or replace, without charge, any product or part which is found to be defective under normal use and service using new or refurbished parts. This warranty does not cover labor or shipping and handling.

This warranty does not extend to (a) consumables such as fuses or filters or (b) third-party equipment such as condensate pumps, inline heaters, wireless components, etc. These components are covered by the warranties of the respective manufacturers of these devices.

Cosmetic blemishes which do not impact the operation of the product are not covered under this warranty.

The warranty will be automatically void should any modifications or repairs be made by unauthorized personnel.

This warranty does not cover (a) normal maintenance and normal service or (b) any products or parts which have been subject to misuse, negligence, accident, improper maintenance or repair, faulty installation or installation contrary to recommended installation instructions. Labor to remove and replace products is not covered. The duration of any implied warranty is limited to the time period specified for the express warranty.

Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. Build Equinox's obligation to repair or replace, at Build Equinox's discretion, shall be the purchaser's sole and exclusive remedy under this warranty.

Some states do not allow the exclusion or limitations of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
